## Service Plans.

**Ask a member of our team  
about spreading the cost of  
your servicing.**

Servicing your vehicle in line with the manufacturer's specification is central to supporting reliability, safety and economy. By opting for a Service Plan, you will have paid for the work required before your vehicle visits the Service Department.

### A Service Plan also comes with the following benefits:

- **Pay Monthly** - An affordable, fixed monthly payment by direct debit covers the cost of all routine scheduled service work.
- **Inflation-proof servicing** - if the price of parts and/or labour increases during the term of the plan, no problem – you won't pay any more.
- **Improved fuel economy** - a properly serviced vehicle will run more efficiently. You can drive mile after mile knowing that your vehicle is in the best condition for saving fuel.
- **Resale desirability** - A Full Service History is a significant asset to boost the desirability and value of your vehicle when you come to sell it.
- **Flexible** - Your Service Plan is refundable or transferrable – please ask for further details.
